Mini 33

A compact scrubber with 33 cm working width for congested areas. With low working height it can clean under furniture etc.

- Easy to use and safe
- Adjustable handle with grip
- Easy to transport

Mega 43

A powerful scrubber with 43 cm working width for regular applications.

- The gear box drive ensures its Reliability.
- Controlled weight distribution for good balance while in use.
- Large solution tank of 15 ltrs

Mega 50+

Single disc machine with gear-box drive, very effective in specific treatments. Has more than 50cm working width.

- The operator can adjust the handle
- Powerful and heavy-duty motor (2.5Hp)
- Controlled weight distribution for good balance

CM 43 Duo

A professional, belt-driven, SD machine which is ideal for efficient and cost-effective maintenance of all kinds of floors. Its dual-speed disc excels at all cleaning operations.

- Recommended for professional cleaning
- Well-balanced weight distribution

Mega UHS 1500

Mega UHS 1500 is a single disc machine suitable for all dry restoration and polishing tasks.

- Exceptional balancing system.
- Special transportation wheels
- Quiet operation

TOR 43

TOR is a new concept single disc machine recommended for heavy duty works. It has an orbital movement that enhances the performances of a regular single disc machine.

The high frequency oscillations get stability and manoeuvrability even with a weight of 65 Kg (without accessories). Moreover, the particular orbital movement makes its use very easy for any operator, that has not necessary to be endowed with distinctive physical strength, reducing also training time.

	Mini 33	Mega 43	Mega 50+
